GOVERNMENT TAKES CHARGE

BEGINS THE FIGHT ON YELLOW FEVER

Surgeon in Charge Hopes for Successful Termination of Struggle—Ready Response to Appeal for Funds.

New Orleans, Aug. 7.—Official report up to 6 p. m.:
New cases, 32.
Total cases, 22.
Deaths, 8.
Total deaths, 113.

With the marine hospital service under authority of President Roosevelt in complete control the scientific fight to eradicate yellow fever from New Orleans has for a long time been only prophylactic, looking on fresh light to day and with ample funds, the best available talent and an army of willing workers at his back, Dr. J. H. White, surgeon in charge, hopes for a successful termination of the struggle. During the day White received formal orders from Surgeon General Wyman, notifying him the federal government had decided to assume the task prepared for it and immediately visited the state and city board of health, where he arranged for transfer of the work. The shifting of authority is expected to be complete to-morrow.

There was prompt response to day to the appeal of Chairman Janvier of the citizens' committee for additional subscriptions to the citizens' fund to the end of raising the \$250,000 desired by the government. Checks poured steadily into the office of the committee. In addition to this appeal Janvier took steps for state aid and it is estimated that in a day or two contributions of at least \$50,000 will be made. Unsolicited checks have been sent from other parts of the country to the fund, which will be fully subscribed, it is believed, before it is wanted. A death reported on the Bell plantation in Jefferson parish, opposite New Orleans, was the fifth that has occurred there, showing heavy mortality from the fever where adequate attention is not given. Dr. Gutierrez of the marine hospital service spent the day in southwest Louisiana investigating reports of suspicious cases, one of them in St. Mary parish. Every authority wanted by the federal bureau is assured. It is expected all resources of the federal government will be used in obtaining modification of extreme quarantine regulations now in effect, so New Orleans will be able to resume commercial relations with surrounding states. Eight hundred men started to day on a general cleaning movement. This force will be largely added to to-morrow and Wednesday, when there will be a general suspension of business for cleaning purposes.

CHAPLAIN DOING WELL.

Archbishop Chapelle was reported as doing well to night. He will pass the crisis to-morrow. The following telegram was received by him from the papal secretary of state: "The holy father desires your sickness. In wishing you a speedy recovery he sends you his apostolic blessing."

AT CAIRO.

Cairo, Ill., Aug. 7.—The state board of health, in connection with the yellow fever, to day ordered restrictions in the issuance of health certificates, and in the future they will be issued only to citizens of Illinois and to persons domiciled for a year in the state. Dr. Egan departed for Springfield to day to be absent until the latter part of the week. Before leaving for Springfield Egan started a campaign against mosquitoes. He issued an order to the health officers in southern Illinois, requesting that every effort be made to destroy mosquitoes.

MAIL SERVICE AFFECTED.

Washington, Aug. 7.—The postoffice department has been advised on account of yellow fever no passenger trains are running through between New Orleans and Houston, thus discontinuing all Southern Pacific through service. Instructions have been issued to send Texas and Mexican mails by way of St. Louis and Memphis.

APPEAL FOR INJUNCTION.

Memphis, Aug. 7.—To day George R. James, a well known citizen, applied for an injunction restraining the board of health from interfering with the return to this city of his wife and daughter, who are visiting in Illinois. Chancellor Heiskell granted a temporary injunction, but explained that he reserved the right to deny the petition if prayer should members of the board of health appear before him and present their side of the case.

APPAIRS IN INDIA.

Bombay, Aug. 7.—The monsoon this year has, generally speaking, proved disappointing and as a consequence there is much anxiety.

An abnormal deluge in the province of Gujarat caused extensive damage and rendered ten thousand persons homeless.

FIRE LOSSES.

Montevideo, Minn., Aug. 7.—Fire to day completely wrecked the interior of a two-story building used as a wagon and machine shop. A 10-year-old daughter of Mrs. Anna Botten and 6-year-old daughter of George Revire were suffocated by smoke.

ANOTHER STORY

Woman Claims Murder of Fisherman Was Committed by Her Accuser.

Rock Island, Ill., Aug. 7.—Josephine Collett, accused by William Nagel of killing and partly burning Carl Brady, a fisherman, on an island in the Mississippi river, to day said the crime was committed by Nagel. She asserted Brady was shot during a quarrel following his refusal to lend Nagel a skiff. When confronted with Nagel the woman repeated the story and fainting. The charred body of Brady was found Saturday. Mrs. Collett and Nagel were arrested in the houseboat owned by Brady, who evidently was killed several weeks ago.

RUSSIANS FORTIFYING.

Tokio, Aug. 7.—It is reported Russians are vigorously fortifying the South Amur river. Mixed divisions have been dispatched from Hailabovsk to Nicolaisk to reinforce garrisons in the vicinity. It is understood channels approaching the river are mined.

STRIKERS ARRESTED.

New York, Aug. 7.—Ten of the striking journeymen bakers whose strike threatens a bread famine in New York's Hebrew quarters were taken into custody to day charged with inciting a riot. Three were fined and the others liberated.

ARBITRATION TALK

Telegraphers Are Willing but Railroad Companies Say No.

St. Paul, Aug. 7.—Persistent rumors were current to day that a move has been inaugurated by the Northwestern Farmers' exchange and merchants' associations, along the line of the Great Northern and Northern Pacific to secure arbitration of the telegraphers' strike. President Perham of the telegraphers expressed a willingness to submit their grievances to any unbiased body of men. Managers of the railroads, however, declared there is nothing to arbitrate. Conditions are somewhat improved to day and trains are running near schedule time.

ORDER GENERAL STRIKE

Cleveland, Ohio, Aug. 7.—The Plain Dealer says that orders have been issued from the headquarters of the International Association of Bridge and Structural Iron Workers for a general strike against the American Bridge company from Maine to California. It is estimated that between 1,500 and 2,000 men will quit work. Bridge work will be tied up in many parts of the country and a number of big building projects will be delayed. The strike will also affect thousands in the building industry.

ATTACKED A BOY

Italian Youth Fatally Stabbed— Assailant Then Jumps Into Canal and Drowns.

Chicago, Aug. 7.—Angelo Puliafio, aged 7, was fatally stabbed at his home near Lemont to night and when an attempt was made to seize his assailant the latter leaped into the Illinois and Michigan canal and was drowned.

The criminal was Romulo Porteo, an Italian who came to America six weeks ago. He was employed as a railroad laborer at Lemont and had a cot in a room occupied by the Puliafio family.

The man and boy were alone, when the former sprang to his feet as if insane, seized a knife and began slashing Angelo. The boy struggled in his grasp and, though cut across the throat, he released himself. As he fled Porteo cut him across the arm, the knife going to the bone.

The boy's cries attracted his father and several others. Porteo, brandishing the knife, fled and the men pursued him to the canal. He plunged into the water and sank.

HELD LONG SESSION.

St. Petersburg, Aug. 7.—Members of the council of ministers who have under consideration the matter of a national assembly had a long and exciting session at Petrohof to day, at the close of which it was announced that the vexed problem of elections for the new assembly and the nature of suffrage had been finally and definitely settled and that the session to-morrow, which would have to consider questions of only minor importance relative to organization of the body, it was hoped, would be the last.

FRAUD CHARGES.

New York, Aug. 7.—Following charges of fraud in connection with the affairs of the Merchants' Trust company the directors of the institution to night appointed a committee to confer with District Attorney Jerome. This committee, it is understood, will lay before Jerome evidence of alleged wrongdoing. Charges were made at the meeting that the receivers of the trust company had refused bids for the assets of the corporation which would have enabled the depositors to have received their money in full.

MORGAN VISITS

ROOSEVELT CONFERENCE LASTED HOUR AND A HALF

Case of Hankow Railroad in China Subject of Discussion— Peace Negotiations Also Con- sidered.

Oyster Bay, N. Y., Aug. 7.—J. Pierpont Morgan, of New York, had a conference to day with President Roosevelt lasting an hour and a half. The president himself is authority for the statement that it related practically entirely to the case of the Hankow railroad in China, the controlling interest in which is owned by J. P. Morgan & Co. Incidentally, and as relating in a measure to railroad interests held by Americans in China, pending peace negotiations formed a topic of consideration by the president and Morgan.

An effort is being made by the Chinese government to purchase the concession owned by Americans, and it is understood, has offered \$7,000,000 for it. European stockholders, including King Leopold, who own the minority of the stock, oppose the sale.

No details of conclusions reached at the conference are obtainable. No information was obtainable, either as to whether they considered peace negotiations in relation to flotation of a Russian loan in this country, in case the envoys should reach an agreement which should render it necessary for Russia to raise a considerable sum of money.

THE TAFT PARTY

Diners and Receptions Given in Their Honor at Manila.

Manila, Aug. 7.—Major General Corbin gave dinner this evening to the gentlemen of the Taft party. Rear Admiral Enquist of the Russian navy and staff were present. Corbin toasted President Roosevelt and Taft, and the Russian emperor. Admiral Enquist, who was much affected, then arose and made a profound salutation.

At the same time Commissioner Forbes entertained Miss Alice Roosevelt at dinner. At 8 o'clock three thousand persons attended a brilliant reception given by Governor Wright at the palace.

TAKEN TO PENITENTIARY.

Chicago, Aug. 7.—Inga Hanson, former Salvation Army girl, convicted of perjury in connection with a personal injury suit against the Chicago City railway, was taken to the penitentiary at Joliet to day to begin an indeterminate sentence.

NEW YORK FIRE

Railroad Property and Shipping Destroyed—Loss Will Reach \$500,000

New York, Aug. 8.—Inside of three-quarters of an hour to night fire swept away the Delaware, Lackawanna & Western Railroad company's terminal in Hoboken, N. J., seized two ferryboats and practically ruined them and for half an hour threatened the destruction of the entire waterfront in the vicinity, including the Hamburg-American and North German Lloyd steamship dock, at which several big ships were lying. As far as known no lives were lost. The loss will probably reach a half million dollars.

The fire started on an old wooden ferryboat and, swept by a northerly breeze, communicated with the ferry house, spread to the main building of the Lackawanna and then to the Dukes house, a famous Hoboken hostelry. By this time the flames were spreading in all directions, utterly beyond control of the firemen who responded to the first alarm. Help came and by 1 o'clock this morning (Tuesday) the fire was under control.

Following the destruction of the hotel, the fire attacked the Hoboken street car sheds, wiping them out. The ferryboat Binghamton caught fire, as did another ferry, the Hopatcong. Both were towed out into the stream by tugs. The Hopatcong sank later. A long line of freight sheds were next destroyed, and then the firemen got control and stopped further destruction.

IN SESSION AGAIN.

Chicago, Aug. 7.—The executive board of the Illinois Coal Mine Operators' association and Mine Workers' union met in joint session here to day to consider the dispute over who shall pay shot fires in mines, but nothing definite was accomplished. Another meeting will be held to-morrow.

PEACE ENVOYS

On the Way to Portsmouth— Witte Spends Day at Boston to Visit Historic Places.

Newport, R. I., Aug. 7.—The yachts Dolphin and Mayflower, with envoys, bearing the Russian and Japanese commissioners to Portsmouth, sailed from this harbor today under ideal conditions, the heavy fog of yesterday having been burned away by the sun. With exception of M. Witte, who is in Boston, members of the Russian and Japanese parties were on board their respective vessels.

Shortly after departure of the fleet the Dolphin picked up a wireless station and sent a large number of dispatches to be cabled to Japan.

Boston, Aug. 7.—Owing to inability of the squadron bearing the peace plenipotentiaries to reach Portsmouth sooner than Tuesday, M. Witte, senior Russian plenipotentiary, took the opportunity to visit historic places in Boston and Cambridge. He left this evening by train for Portsmouth.

Portsmouth, N. H., Aug. 7.—Sergius Witte, senior member of the Russian peace commission, arrived in Portsmouth by rail at 11:15 to night.

To night an answer to numerous calls was received stating that at dark the Dolphin with the Japanese envoys was off Cape Cod, seventy-five miles away. She was steaming slowly and those on board thought the cruiser would reach the harbor about 9 o'clock to-morrow morning.

IN FAVOR OF COMPANY

Employer Not Responsible for Negligence of Employee.

St. Louis, Aug. 7.—A decision was handed down to day in the United States circuit court of appeals in the suit of Mrs. Alline A. Dixon versus the Northern Pacific railroad to cover damages for the death of her son, a fireman, killed in an accident due to alleged negligence of a telegraph operator who falsely reported that a train had not passed a station, in which the court upheld the contentions of the defense in effect that an operator was a fellow employee of the fireman, and as one employee cannot collect damages from an employer when the injury is due to carelessness of a fellow employee, the company claimed it was not liable. The court decided for the company.

DEFENDS OIL KING

Critics of Rockefeller Scored by Cincinnati Minister.

Cincinnati, Aug. 7.—Rev. Charles W. Blodgett, pastor of St. Paul's M. E. church, is out as a champion of John D. Rockefeller.

In a statement he has just issued he takes a few falls out of Mr. Rockefeller's critics and pays his respects to Rev. Washington Gladden, of Columbus. The statement says in part:

"The abuse of John D. Rockefeller by the press and the pulpit should not only have no sympathy, but unequalled condemnation. The recent article by Miss Ida Tarbell stamps the writer as heartless and almost vicious.

"Miss Tarbell has by that article smirched what might have otherwise been a brilliant literary career. She had to drag in ghosts of family history. It was unpardonable, it was tendentious.

"Rev. Washington Gladden, a so-called reformer of Columbus, whose reforms have never materialized, is equally as vicious against Mr. Rockefeller. The public at large has come to look upon Mr. Gladden as a sort of ecclesiastical high cleric. His words have but little weight. He has during the twenty-five years that the writer has been observing him, never advocated a measure or a theory that was not killed or rendered negatory by his erratic utterances and visionary thoughts. The wonder is that Mr. Gladden has stuck to his orthodox faith. He has such a horror of taint that possibly he has been afraid to land in the liberal ranks."

QUEST OF BRITISH.

Cowes Isle, Aug. 7.—The French fleet dropped anchor in Solent to day to spend a week as guests of King Edward and the British navy. A heavy downpour of rain throughout the morning drenched the decorations ashore and afloat and shrouded in a heavy mist the great gathering of yachts and British warships collected to welcome the visitors.

The meeting demanded the arrest of the governor and chief of police, who, it is declared, had fomented disturbances which occurred last January. The meeting further insisted upon disbanding Russian gendarmes in Finland, abolition of dictatorship and censorship and restoration of liberty of the press.

Chattanooga, N. Y., Aug. 7.—William Jerome, district attorney of New York, addressed six thousand persons at the assembly Sunday afternoon on "The Patriotic Investigation."

"Has any one brought to light any intention to protect the widow and orphan?" he exclaimed Mr. Jerome.

He referred to the building of Carnegie libraries in New York, which, he said, are not used and never can be.

"Better forget," he said, "the name of Carnegie and leave that money with the men who earned it, and make their homes happy. I believe in law and order, but if I lived in one of those miserable hovels in the iron and steel district and needed money for a loved one I should not view the founding of these libraries with complacency."

EXPECT A CIVIL WAR.

Mexico City, Aug. 7.—The federal authorities are adopting strong measures to prevent an armed conflict between the two candidates for governor in the state of Coahuila.

According to official reports which have been received by the war department from its representatives in that state, the followers of Gov. Miguel Cardenas, who is seeking re-election, and Brudenio Puente, his opponent, have imported large shipments of arms from the United States and both sides are in military training and well prepared for a bloody conflict. The federal government has issued orders that the prospective belligerents be disarmed. The shipments of arms are said to aggregate six thousand rifles and half a million rounds of cartridges.

THE TRAMSTERS.

Philadelphia, Aug. 7.—The International Brotherhood of Teamsters began its third annual convention here to day. President Shen, of Chicago, was in the chair. Delegates represent a membership estimated at 125,000 men and boys from nearly every section of the country.

The convention did nothing of general interest or of great importance at their first session. Nothing occurred during the day to indicate a sharp fight that it is predicted will be made against the election of President Cornelius P. Shea.

Committees were announced and routine business transacted. There was half an hour debate over the question of admitting reporters during the convention. It was argued that if newspaper men had been admitted to meetings of the union in Chicago the strike there would not have been a failure. The motion to admit reporters carried.

No one was drowned, but several were injured in the panic. The boat was carrying a picnic party consisting of employees on the Indianapolis stock yards.

Overweighting of the boat caused it to turn over on its side and the superstructure broke from the hull. The boat was near the bank when the accident occurred and in but seven feet of water. The upper deck remained above water. Five persons were more or less injured. William White had his back badly hurt and Dennis McIligan had his right foot badly mashed. Persons in launches and canoes took a number of the people from the water. A greater number clung to the upper deck, which was not submerged, until taken ashore by boats.

Violent Deaths in Springfield

STRUCK BY TRAIN.

White Hall—Ed Rose, aged about
28 years, son of Mr. and Mrs. N. H.
Rose of this city, was struck by the
"Hummer," a fast south bound train
on the C. & A. near Murrayville, a
short distance north of here, about 2
o'clock Sunday morning, breaking both
legs between the knees and ankles
and his left arm just below the el-
bow. A deep gash was also cut in the
back of his head. He lay at the side
of the track in his helpless condition
until the track workers found him
about 6:30 o'clock a. m. The south
bound accommodation train was flag-
ged; it stopped and picked him up
and brought him home shortly after
7 o'clock. Drs. E. E. Peters and E. K.
Shirley dressed the wounds, and the
young man was at last accounts rest-
ing as easily as could be expected.
He is addicted to drinking and it is
supposed he was in a drunken stupor
and went to sleep on the track.

CORN WITHOUT COB.

Mt. Vernon—Corn without cob has
been grown by Clark Zanes, of Shi-
loh township, who brought a sample
stalk of the new variety to Mt. Ver-
non. The corn is the first which has
been grown in this county. It is called
the Egyptian hooded corn, and the
seed was obtained from the depart-
ment of agriculture at Washington.
Both the tassel and the silk grow
from the top of the stalk, and the
grain grows from the end of the silk.

Peoria—A suit for 5 cents, brought
by the Santa Fe railroad company
against Judge W. R. Curren of Pe-
ria, bids fair to be taken to the su-
preme court for final judgment. In
improving his office, the judge a few
weeks ago ordered a new door from a
Chicago firm for his said. When the
door arrived he was not apprised of
the fact until a demurrage charge of
5 cents had accumulated. The amount
the company demanded in settlement,
but the judge gained the door by re-
plevin papers, and now the Santa Fe
has brought suit to recover the 5
cents claimed to be due. The judge
says he will fight the case through the
supreme court.

PEORIA DEAD.

Peoria—John Comstock, for sixty-
five years a resident of Peoria and
one of the wealthiest men in central
Illinois, is dead. Mr. Comstock was
born in Taylorville, Ohio, in 1818 and
came to Peoria in 1840. During the
civil war Mr. Comstock expended big
sums of money in fitting out troops
to serve in the union armies. For
this service he was publicly thanked
by Richard Yates, the war governor
of Illinois, and given a colonel's com-
mission. He was one of the oldest
Masons in the state.

FOUR DIE IN SPRINGFIELD.

Springfield—Four men came to
their death by violent means in Spring-
field Sunday. Ashford Jones, a
music teacher, and an old gentleman
of reputable appearance and man-
ners, was run over and killed by an
Illinois Central passenger train.
James Allen, of Duncan, Ky., died
from the result of morphine poison-
ing taken with suicidal intent. Al-
bert Chajinski died from the effects
of injuries received by a fall of slate
in a coal mine at Green Ridge Thurs-
day, and James W. Wicks was drown-
ed in the Sangamon river.

Care of the Farm Wagon.

One of these days, when the farm
wagon has to be rigged up it may be
that the tires are so loose a breakdown
is liable—this would cost from \$10
to \$15, besides loss of time. Two gallons
of hot linseed oil in which to soak the
tires would prevent the smashup and
lengthen the life of the wheels.—Farm-
ers Advocate.

Care of Lambs.

The lambs should be put on the best
pasture and given all the grain they
will eat. Clover pasture is the best for
lambs. Fresh second growth clover is
ideal. Do not neglect to have a good
shelter in the pasture for sheep and
lambs.—Farm Journal.

Cows and Hens.

Poultry raising and dairying should
go well together. The dairyman who
can deliver fresh eggs to his customers
daily should get a good price for them.
Those to be had at the grocery stores
during these hot days are not at all
desirable.

Keep the Pigs Growing.

It is poor policy to stint the feed and
care and stunt the growth of the pigs
because you happen to be short of
feed. Better swap off a few head for
feed to properly care for what you
have left.

ANOTHER WONDER OF SCIENCE

Biology has Traced that Dandruff is
Caused by a Germ.

Science is doing wonders these days in
medicine as well as in mechanics. Since
Adam lived, the human race has been
troubled with dandruff, for which no hair
preparation has heretofore proved a suc-
cessful cure until Newb's Herpicide was
put on the market. It is a scientific prop-
agation that kills the germ that makes
dandruff, or scurf, by digging into the
scalp to get at the roots of the hair, where
it seizes the vitality, causing itching scalp,
falling hair, and finally baldness. With
this dandruff hair must grow luxuriantly.
It is the only destroyer of dandruff.

te of internal revenue collections
during the fiscal year ended June 30,
1905, were \$234,187,970.37. Illinois

ria, of fifth, district of Illinois holds
its place as the largest internal revenue
district in the United States, if
not in the world, showing collections
aggregating \$34,601,603. The eighth,
or Springfield, district of Illinois col-
lected a little less than \$10,000,000.

Missouri's collections were \$8,401,
337.65, of which Ben Westhus, of St.
Louis, collected \$7,625,780.18, and
Charles W. Roberts, of the Kansas
City district, \$835,557.47.

A GOOD AFTER

DINNER CIGAR

**Armstrong & Armstrong Say
the Chicos Just Will the Bill.**

The time to enjoy a real good cig-
ar is after a good dinner. "There
is no better time to test the quality
of Wadsworth Bros. Chicos than to
light one right after a hearty meal,"
said Mr. Armstrong of Armstrong &
Armstrong's drug store. "It just fills
the bill for a good after-dinner
cigar."

It is clear, long Havana filler of
superior quality, and the size is ex-
actly right.

Armstrong & Armstrong say they
have sold more Chicos since they in-
troduced this brand in Jacksonville
than they ever sold before of any
brand in four times as long. This
shows how well it pleases the smoker
who enjoys a good cigar.

Considering its superior quality,
the price at which it sells, 5 cents
straight, is a surprise.

Step into Armstrong & Armstrong's
store to day. Mr. Smoker, get a
pocket full of Wadsworth Bros.
Chicos.

The "intermediate host" is a pretty big name for the mosquito, even if it is of the stegomyia fasciata variety.

While the peace envoys are in this country the fleets of Louisiana and Mississippi might arrange a naval exhibit in their honor.

The war is on between the Yellow Jack and Uncle Sam, and it is hoped the pesky mosquito will be rendered hors de combat in short order.

Terms seem to be long suit with the Japanese envoys. They know what they want, whether it is in war or in peace, and from recent experiences are able to enforce their demands.

"Peace with honor" is the Russian contention, but any old thing seems to suit the Japanese. Both countries are at the cross roads. Japan is ready to go down either way, but with Russia the choice is fraught with great consequences.

Between the expressions of his vilifiers and his vindicators it will continue to be some months before John D. Rockefeller will be able to buy a magazine that has nothing to say about him. His latest defender is a Cincinnati preacher, who, while trying to vindicate Mr. Rockefeller, endeavors to take a fall out of the Rev. Washington Gladden.

The election commissioners of Chicago have asked for bids from several voting machine concerns for the installation of 700 of these very useful contrivances. An expense of possibly \$300,000 will be entailed, but after careful consideration, the commissioners are convinced that it will be economy in the long run. Moreover, the desirable end of fair elections with early and accurate returns will be made possible.

AN AMERICAN.

The late John Hay once said: "I was born in Indiana. I grew up in Illinois. I was educated in Rhode Island. I learned my law in Springfield, Ill., and my diplomacy in Europe, Asia and Africa. I have a farm in New Hampshire and desk room in the District of Columbia. When I look to the springs from which my blood descends, the first ancestors I ever heard of were a Scotchman who was half English and a German woman who was half French. One of my immediate ancestors, my mother, was from New England, and my father was from the south. In this bewilderment of origin and experience I can only put on an aspect of deep humility in any gathering of favorite sons, and confess that I am nothing but an American."

SOCIAL UNREST.

District Attorney Jerome has paid his compliments to Andrew Carnegie in no uncertain manner. He says "If he lived in one of the hovels of the iron and steel district he should not view the founding of libraries with complacency." Social unrest, the attorney declares, is fast approaching a crisis.

Yes, and it can be truthfully added that such utterances as Mr. Jerome put forth in his recent trip to the west when he belittled the morality of rural communities simply add fuel to the flames. America is evidently in a period of marked social evolution, but if conservative heads are allowed to direct our affairs, municipal, state and national, the future need not be viewed with alarm. The introduction of the continental Sunday, which Mr. Jerome seems to stand for, will bring ruin in its train as certain as it is allowed to prevail. Whenever respect for the seventh day is allowed to lapse in the cities and hamlets of America, one of the great props under our constitution will have been taken away. The proper observance of Sunday is necessary to our perpetuity as a nation. The American Sunday is in danger to day and it is none too soon to sound the tocsin and let the warriors begin the warfare. People who live in glass houses should not throw stones. If the practice of Mr. Carnegie will not admit of justification, certainly the views of Mr. Jerome will cause equal unrest. Let him amend his platform.

Court House News

The answer to the bill of complaint of Arthur Kingsley in the case of Arthur Kingsley vs. John E. Kingsley, has been filed, and the principal points are as follows:

The plaintiff admits complainant has a life interest in the land mentioned in the bill of complaint, but denies that the chattels mentioned were the sole means of support of the complainant, and the only property he could apply to his debt to the Hockenull bank, if he owes such a debt. He admits that at various times the complainant has advanced him certain sums of money, to the amount of \$1,400, but that he has returned all but \$800, which sum he has secured to complainant by assigning to him a lifetime life policy for \$3,000. He admits complainant made a conveyance to his daughters of his farm, but denies the reasons given, and denies making threats against complainant. He admits that he went to Woodson with his father on election day, and that the chattel mortgage mentioned in the complaint was there executed, but denies that he gave his father liquor, or that undue influence was used upon his father in any particular. He says that the complainant freely executed the mortgage, and that this act was in accordance with his previously expressed intention. That upon the complainant conveying his farm to his daughters he had not other property with which to equalize defendant with his daughters, aside from his chattels. That complainant, feeling that he had been over-reached by his daughters to the exclusion of the defendant in any share of his estate, declared to defendant that he would equalize him by way of advancement by giving him a mortgage on his personal property, and a note to cover same, which proposition was repeatedly made to defendant, and that the note and mortgage in controversy were made strictly in accordance with the wishes of the complainant. The defendant further says it is not true that he is insolvent, but on the contrary he is to day worth \$3,000 over and above all liabilities of any kind.

The defendant in support of his allegations, refers to a certain bill of complaint of the defendant, against Winnie Kingsley, filed Nov. 14, 1904. He further says that when his father proffered him the mortgage on his personal property he asked defendant not to disturb the property during his life, as he did not expect to live but a short time, and the defendant did promise him that he would not enforce the payment of the note of \$3,500 during his life, unless something should arise which would compel him to protect his rights. He says that he fully intended to carry out his promise, but about two days after the execution of the note and mortgage the complainant made a mortgage to his daughter, Winnie, covering the greater part of the property embraced in the defendant's mortgage. Defendant, however, took no steps to enforce his claims at once, nor until he heard that complainant was taking steps to sell the cattle embraced in his mortgage. He thereupon went to Woodson with his mortgage for the purpose of foreclosing the same under the insecurity clause. He was met by one E. E. Crain, who seemed to be acting in the interest of the complainant, and who drew a pistol on defendant and ordered him to desist. Defendant, fearing for his life, came back to Jacksonville and replevined the property so as to subject it to his mortgage and posted the regular notice. He gave bond when he replevined the property, that the property was then delivered into his hands by the sheriff, and that the said bond is good and sufficient surety to insure the plaintiff against loss, and consequently no intervention of a court of equity was necessary. He makes his affidavit, writ and bond in said replevin suit a part of his answer and prays to be dismissed from the suit.

IN HONOR OF SIGEL.

Germans from all over the United States will gather in St. Louis next spring to honor the memory of Gen. Franz Sigel, the dashing cavalry leader who organized four regiments of young Germans for the federal army in 1861 and "saved Missouri" for the union. The statue, for which \$10,000 was subscribed by patriotic residents of St. Louis, will probably stand in Forest park. It is the work of Robert Cauer, a German-American sculptor of Berlin. Cauer went to St. Louis last year and modeled the facial likeness from original photographs of General Sigel at the time of the war. Sigel is shown at the battle of Pea Ridge, scanning the approaching enemy just before he made his famous rally of his German "boys" and turned seeming rout into glorious victory for the boys in blue. It was to this engagement that the famous humorous ditty, "Mc Fought Mit Sigel" referred.

CONSUMPTION THREATENED.

C. Unger, 211 Maple street, Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me and I have not been troubled since. Sold by J. A. Obermeyer, City drug store."

American Ice Cream Habit.

When I was in New York the extraordinary amount of ice cream devoured by Americans was proved to me by the large area devoted in the department stores to the sale of this popular refreshment. "I guess we Americans have cast iron fixings," said one of them when I expressed my astonishment at the way in which even elderly men and women took ice cream at social festivities. Certainly the ice cream habit must have something to do with the indigestion from which so many suffer in the summer. At all the parties one attends in America ice cream is an inevitable item on the menu, and it is consumed in quantities which would delight a London caterer who charges by the quart. — London News.

The Green Peril.

France has a "green peril," which, however, it does not dread, but rather courts. In round numbers, it is said, 2,925,000 gallons of absinth are annually required to allay the thirst of Frenchmen, or, rather, French men and French women, as the latter consume their full share not only in the cafes of Paris, but throughout France. One result attributed to the absinth habit is the increase in lunacy in France. During the last sixty years the number of lunatics has increased from 10,000 to 80,000; while the increase in crime during the same period has also been great.

The Blood Bible.

A famous Bible known as the "Blood Bible" has been sold by public auction at Breslau to the descendants of Frederick von Trenk, its original owner, for \$300. Frederick von Trenk was imprisoned and confined in chains by Frederick the Great for the king's temerity in making love to the king's sister, Princess Amalia. During his incarceration Von Trenk inscribed 200 blank pages in this Bible, a present from the princess, with love sonnets in her honor, every word of which was written with his own blood.

Associated Press Censorship.

Seven hundred newspapers, representing every conceivable view of every public question, sit in judgment upon the Associated Press dispatches. A representative of each of these papers has a vote in the election of the management. Every editor is jealously watching every line of the report. It must be obvious that any serious departure from an honest and impartial service would arouse a storm of indignation, which would overwhelm any administration. — Melville E. Stone in Century.

The Shake-hand-less Salute.

Dr. Nalpassee is preaching in Paris the gospel of the shake-hand-less salute, which, he declares, is partly responsible for the excellent health prevailing in unhygienic Turkey. You put your hand to your heart, lips and forehead successively to express that your friend is always in the heart, on the lips and in the thoughts. It is pretty, and you neither give nor take microbes.

CORN DAMAGED BY HAIL STORM

Eastern Part of the County Visited by Wind and Hail Early Sunday Evening Many Fields Ruined—Two Windmills Blown Down—Telegraph Poles Interfered With Wabash Traffic.

The eastern section of the county was visited by a heavy hail and wind storm Sunday evening about 6 o'clock. Hundreds of acres of corn were badly damaged by the hail and limbs of trees were strewn in every direction. Several window panes were broken in Alexander and windmills on the farms of Septimus Stevenson and George Davenport were blown down.

Mr. G. C. Guthrie, who was spending the day at the home of his father-in-law, Mr. Stevenson, gave a very vivid description of the storm, which lasted half an hour. Hailstones as big as pebbles and about the same shape fell thick and fast and seemed to be driven along by a heavy north wind.

The storm seemed to cover a territory about two miles in length and a mile in width. Growing corn was milled and it is believed that the crops in the localities visited by the hail is damaged beyond recovery.

Among the farmers whose fields were damaged were: Charles Wilcox, Frank Drury, William Lukens, Septimus Stevenson, Benjamin Davenport and a number of others.

Limbs of trees were twisted and blown in every direction and in many of the fields the leaves of the corn were literally stripped from the stalk.

Corn was also badly injured by the wind and in many fields the stalks were blown into a tangled mass.

Telegraph poles on the Wabash right of way between Orleans and Alexander were blown over in such a manner as to interfere with traffic, as the poles scraped the cars. This fact delayed the Wabash passenger, due here at 6:50, for over two hours and the progress of the train was arrested until section men could go ahead and remove the obstructions.

In this city the storm was limited to a welcome gust of wind from the north and a light rain.

DELIGHTFUL OCCASION.

Sunday was the birthday anniversary of Capt. William A. Kirby, and the day was also marked by the homecoming of his wife, who has been visiting at the home of her daughter, Mrs. M. G. Frampton, in California. In anticipation of this double event, the relatives of Mr. and Mrs. Kirby planned a quiet celebration in their honor. A picnic luncheon was spread on the Kirby lawn on Mound avenue and about 5 o'clock the friends began to arrive. It was a delightful occasion in every respect. Those present were: Judge and Mrs. Edward P. Kirby, Mrs. Julia Carter, Mr. and Mrs. T. P. Carter and family, Dr. and Mrs. W. K. McLaughlin and family and Miss Sturtevant, of Delavan, Wis.; Mrs. Frances McLaughlin, Mr. and Mrs. Marcus Robinson and family, Miss Ruth Vail, Miss Lucy Mount, Mr. and Mrs. William T. Wilson and family, Mrs. Helen Jordan and Miss Emma Kubieck, Dr. and Mrs. Carl E. Black and family, Miss Esther Kirk and Dr. R. O. Post and family.

PITTSFIELD WAS DEFEATED

Close Contest in Baseball at West Side Park Sunday Afternoon—Crowd Was Large.

Jacksonville defeated Pittsfield at the west side ball park Sunday afternoon in an exciting game of baseball by a score of 7 to 5. The attendance was exceedingly large, as there were over 700 paid admissions and each person certainly got his money's worth. The Pittsfield boys are a strong bunch of players and the locals had to do some fancy playing to win the game. Belt, Hagel and Livingston did the future work for the home team, while Minier, the Pittsfield second baseman, was the whole show for the visitors.

In the first inning Pittsfield got a man to second and the locals got one to third, but neither team scored. In the second Jacksonville scored two men without making a hit. Magill struck out and Schumm made first on a fumble by C. Minier. He stole second and Wagner was hit by a pitched ball. Boyle hit to C. Minier and Schumm made third. Baker fled to left field, A. Brown muffed it and Schumm scored. Wagner was put out while trying to cut third. Doyle did the stealing act of third and touched the plate when C. Brown muffed Hagel's fly. Livingston hit to G. Minier and was put out at first.

The locals made two more in the third. Butler reached first on a fumble by C. Minier and stole second. Belt struck out, Magill was put out, and Butler went to third. Schumm hit to Mains, who fumbled, and Butler scored. Schumm stole second and touched the plate on Wagner's second hit to second.

Doyle singled, Wagner went to second, where he died, and Baker went out, G. Minier to Pulliam. Hagel scored in the fourth on Butler's single to center. In the fifth one more was added when McGrath who was batting for Schumm, hit to Mains. He went to second on Mains' wild throw and scored on Wagner's hit to center. The final score was made in the eighth. Belt was safe when Pulliam muffed Mains' throw. He made third on a single by Magill and scored on a passed ball.

Pittsfield did not score until the fifth. Baker made two bases on a hit to right field, went to third on Burridge's single and touched the plate on a wild throw. In the seventh Pulliam singled and reached home when McGrath failed to stop the ball. The game closed for the visitors in the eighth, when they made three runs. C. Minier was safe on Butche's fumble and Doyle muffed G. Minier's third strike, but tagged him on the way to first. C. Minier made third while this was happening. Pulliam hit to Wagner and C. Minier scored. Doyle made a bluff at throwing to second and instead threw to third. His aim was untrue and G. Minier and Pulliam both scored. Baker, Mains and Burridge went out in order.

Washington, Aug. 8.—For Illinois: Fair Tuesday, with warmer in the extreme south. Wednesday, fair; light, variable winds, becoming south.

HOT WEATHER AND WHISKERS.

There has been some discussion of the question: "Do whiskers grow faster in hot than cold weather?" If you are still in doubt, ask the barber. He is the authority and decides that there is an increase of about 20 per cent in growth during hot spells, as measured by his business at least. Warm, moist weather, especially is conducive to rapid growth in crops and the crop of whiskers seems to be no exception to the general rule.

There is another reason as well for the seemingly more rapid growth of whiskers, which is the relaxation of the skin due to hot weather. This stretches the skin out and exposes more of the stump of the whisker. In cold weather the skin contracts round the root of the whisker and the face after shaving remains smooth for a somewhat longer period than during the hot and oppressive days of summer. While the barber admits that business is better in hot weather it is not always welcome to the artist of the clippers and razors, as the customer is more irritable and harder to please and the rushing work of hot days of summer are about as trying on the barber as on any artisan of the city.

COLLAR BONE BROKEN.

John Gordon, of 1092 West College avenue, was seriously injured Saturday evening by being thrown from his buggy on West College avenue while out driving. Dr. Roberts, of Lynnville, was driving up the avenue toward his home when one of the wheels came off the buggy. His horse became frightened and ran into Mr. Gordon's buggy, throwing the occupant to the pavement. Dr. J. A. Day was called and found that one shoulder bone was crushed and that the collar bone was broken. Mr. Gordon is resting as easy as could be expected under the circumstances.

TELEPHONE COMPANIES

Were in Conflict—Representatives From Greene County Here Monday—Officials of Bell and Illinois Discuss Differences.

Representatives of the Illinois Telephone company from Greene county were in the city Monday in conference with representatives of the Bell Telephone company. The Bell people are extending their lines in Greene county and difficulty has arisen between the two companies. It was feared that the matter would take the form of an injunction proceeding and representatives of the Illinois company were expecting that such action would be necessary, but an agreement was reached whereby Mr. Curtiss Rottger, district superintendent of the Bell company, went to Carrollton Monday afternoon to investigate. It is thought that the difficulty is largely the result of friction between employees of the Illinois and Bell lines, and if such is the case the matter can be adjusted without reference to the courts.

The Bell people were represented in this city Monday by their attorneys, Messrs. Conklin and Irvn, of Springfield; Curtiss Rottger, district superintendent, and A. S. Morse, superintendent of construction. The representatives of the Illinois company from Greene county were Manager Hamilton, of Carrollton, and Norman Jones, an attorney of Carrollton.

WILL FILED.

The last will and testament of the late Mrs. Lucinda Bigelow was filed for probate Monday. The instrument, after providing for the payment of all just debts of testatrix, bequeaths all property to the son of testatrix, Charles E. Bigelow, of Joliet, Ill. The instrument bears date of May 22, 1905, and C. E. Wemple is named as executor. The witnesses were Grace Graves and F. H. Wemple.

City and County

Miss Addie McBride has returned from a two weeks' visit in Clinton, Springfield and St. Louis with friends.

A precinct Sunday school convention will be held in the Christian church at Woodson Sunday afternoon at 2 o'clock.

A watermelon picnic will be held in Woodson Aug. 31. An interesting program is being prepared.

The ladies of Zion church will hold a burgeo and ice cream supper at the church Saturday, Aug. 12. Everybody is invited to come and enjoy the excellent program.

MET WITH ACCIDENT.

Harry Goodwin, an employee of Jake Ornellas, met with a serious accident on North West street Monday afternoon, which may result in the amputation of his right foot.

He attempted to climb on one of the loaded coal wagons belonging to J. W. York and driven by a friend, when the neck yoke of the wagon came off from the tongue and Goodwin, who was trying to mount the driver's seat by stepping on the double trees, was thrown to the ground. The front wheel of the heavily loaded wagon passed over his right foot just below the ankle. The bones of the leg were badly crushed. Mr. Goodwin was taken to an adjoining house and Dr. Allen King called. He gave the needed emergency attention and later had the injured man removed to Passavant hospital. Goodwin was also bruised about the arm and body.

ALTON TRAIN

MURDERER

Placed in Pike County Jail—Had Served With Regular Army in Philippines—Remembers Nothing of Tragedy.

Pittsfield, Ill., Aug. 7.—Philander Eugene Peitzmann, the young man who shot and killed Marion Warner of Secor, Ill., on the Chicago & Alton excursion out of Bloomington for Kansas City on the morning of Aug. 5, is in jail here.

Peitzmann is a young man about 24 years of age, 5 feet 10 inches in height, weighs about 180 pounds, has light brown hair, grey eyes and a florid complexion. He is quiet in manner and intelligent in conversation. He says he was in the regular army, serving with the Eighth and Twenty-eighth regular United States infantry in the Philippines.

He returned to the United States in January, 1904, and was stationed at Fort Lincoln, N. D., a two-company post commanded by Captain Roymanne of the Twenty-eighth United States infantry.

He was discharged from such service about six months ago and has been working as a painter for James Batchelor at Hopedale, Ill.

At 8:24 p. m. of Aug. 4 he and a friend bought tickets and boarded the Chicago & Alton excursion train at Hopedale. He now claims to remember nothing except that Pleasant Hill, this county, was the last station billed as a receiving station for passengers.

The difficulty has been variously reported, but the best information so far obtainable here is to the effect that as the train was approaching the Chicago & Alton bridge across the Mississippi river at Louisiana, Peitzmann suddenly became excited and shot Warner, who was sleeping in a car chair. He was immediately shot at by the negro porter, the ball from whose pistol buried itself in his (Peitzmann's) watch. He was then taken in charge by passengers.

Upon arrival at Louisiana the train was held two hours, and an inquest was held on the body of Warner, which was taken in charge by the Odd Fellows and forwarded to Secor, Ill. Peitzmann was arrested upon a warrant issued by Justice Worthington and the preliminary trial will be held as soon as the state's attorney is ready. Peitzmann has as yet secured no counsel for his defense.

WEDDING BELLS.

Godolphin, rector of the local church. The ceremony was followed by a celebration of the holy communion. The attendants were Dr. H. H. Oneal, the bride's pastor; Mrs. M. T. Layman, her mother, and her sister. The young couple left immediately for a wedding tour.
